

# bright. sterile.

Curaplex<sup>®</sup> CuraView<sup>®</sup> LED Laryngoscopes

# bright. sterile.

CuraView® LED Laryngoscopes combine the quality and strength of a reusable laryngoscope with the convenience and dependability of a disposable, packed as a completely sterile product that eliminates the risk of cross-contamination.

## vivid light

Regardless of the patient scenario and urgency, CuraView® LED provides advanced ultra-white LED lighting that you can count on for optimal visibility during intubation.

## sterile

Eliminate the risk of patient to patient cross-contamination and factory embedded contamination with a completely sterile single-use solution.

## no hidden cost

Straightforward pricing eliminates the hidden cost associated with reusable laryngoscopes, such as replacement parts, cleaning supplies and labor.

## high-quality

The CuraView® LED is designed with an industrial-strength blade and no-slip handle that inspires confidence during your everyday and emergent intubations.

### one-piece option

CuraView® LED Laryngoscopes

#### non-slip handle

Inspires confidence during intubations

### two-piece option

CuraView® LED Fiber Optic Laryngoscopes

#### green system compatible

CuraView® LED Fiber Optic handles and blades are compatible with other green system handles and blades

# Curaplex® CuraView® LED Fiber Optic
