

## Flo-Guard breathing filter

Bacterial and viral filter for CPAP and bilevel applications

**Airway Management** • Breathing Filters, HMEs and HMEFs

## Flo-Guard

### Low-resistance breathing filter for CPAP and bilevel

The Flo-Guard breathing filter is designed to be used at the machine-end of a breathing system to protect the patient and machine against cross contamination, while maintaining a low resistance across a wide range of flow rates.

The low resistance makes it an ideal filter for use in both the hospital and home setting, where high flow rates may potentially be used, this includes CPAP, bilevel and cough-assist applications.

The Flo-Guard offers an excellent bacterial and viral filtration efficiency while offering some of the lowest resistance to flow available at very high flow rates.

Code	1690030
Box Qty.	50
Filtration efficiency	>99.99%
Compressible volume	80ml
Weight	27.8g
Connectors	22ID-22OD

Resistance to Flow Rates	
Resistance at 30L/min	0.4cm H <sub>2</sub> O
Resistance at 60L/min	0.8cm H <sub>2</sub> O
Resistance at 90L/min	1.4cm H <sub>2</sub> O
Resistance at 120L/min	2.0cm H <sub>2</sub> O
Resistance at 150L/min	2.7cm H <sub>2</sub> O
Resistance at 180L/min	3.4cm H <sub>2</sub> O
Resistance at 210L/min	4.3cm H <sub>2</sub> O
Resistance at 240L/min	5.1cm H <sub>2</sub> O
